(3) **New Post Office at Norman Wells, N.W.T. to be served by Air Mail.**—A new post office has been established at Norman Wells, N.W.T., situated on the Mackenzie River approximately fifty miles north of Fort Norman.

Norman Wells is served six times per year by the Mackenzie River Air Mail Service.

The rates of postage are as follows:—

FIRST AND THIRD CLASS MATTER—Ordinary first class rates.
SECOND CLASS MATTER—1c. per 2 ounces or fraction thereof.
PARCEL POST—$1.20 a lb. or fraction of a lb.

(4) **Trans-Pacific ("Clipper") Air Mail Service.**—In order that existing schedules may be brought up to date Postmasters are informed that the United States Postal Administration advise that, due to weather conditions in certain parts of the Pacific Ocean, there was no flight from San Francisco on the 14th December. A departure from San Francisco was scheduled to be made on December 21st, and one took place on December 28th.

(5) **Calendars—To be carefully handled.**—At this time of year business firms are preparing to mail quantities of calendars to clients and prospective customers throughout the country. The calendars are, in many cases, printed at considerable expense and are valuable not only to the recipient but to the business firm as an advertising medium.

It is important, therefore, that the calendars should be delivered carefully and Postmasters are requested to exercise care in the handling of these items during the course of post.

In the event of delivery not being effected and the calendar bears a return address on the cover, the calendar should be returned to the sender.

(6) **Clear impression of date-stamps on mail.**—The Inspection Service reports that, a great number of articles of mail which reach the Dead Letter Office, cannot be returned to senders owing to impressions of the date-stamp being so indistinct as to be undecipherable. It is therefore desired that date-stamps be kept properly cleaned and stamping pads well inked so that a clear impression of the date-stamp will appear upon each item of mail posted.

(7) **Remitters to fill in particulars in Postal Notes.**—When Postal Notes with the receipts detached are being handed to the purchasers, the attention of the latter should be drawn to the instructions on the Note which direct that the note should be filled in by inserting the name of the payee, the name of the office of payment, and the name of the remitter.

The Department will not be responsible for wrong payment of a note not properly filled in by the remitter.

Postmasters in issuing offices are requested to exercise the greatest care to ensure that the purchasers of postal notes have their attention directed to the very necessary conditions indicated on the face of the notes.

(8) **Card No. 32 to be sent to senders when parcels are undeliverable.**—The attention of Postmasters is directed to Section 128, Page 31, of the Postal Guide, which requires that before returning undeliverable parcels to the sender, postmasters are to notify the sender on Card No. 32 of the reason for non-delivery, with a request for instructions as to the disposal of the parcel.

It is reported that, in a number of cases undeliverable parcels have been returned without the sender first having been advised, as required by the regulations, and Postmasters are instructed, therefore to see that in future the procedure outlined in Section 128, Page 31, of the Guide is strictly complied with.

In all cases where senders are advised on Card No. 32 that parcels are undeliverable, the Postmaster will, before returning the parcel to the sender, endorse the item to the effect that the sender has been advised on Card No. 32 in accordance with the regulations.

(9) **Re-direction of Parcels.**—The attention of Postmasters is directed to the fourth paragraph of Section 126 of the 1938–39 Postal Guide, which provides for the free re-direction of parcels provided that the forwarding address is within the same Province to which the parcel was originally addressed, and in this connection Postmasters are informed that this privilege of free re-direction applies only in the case of parcels mailed in Canada addressed for delivery in Canada.

(10) **Rates of Postage on Letters and Postcards from Other Countries to Canada.**—Postmasters are advised that the rates of postage on letters and postcards from the countries mentioned are as follows:—

	1st weight	2nd weight	Postcards	Date
France	1 fr. 25	75 centimes	75 centimes	1st Dec. 1938.
New Hebrides	30 centimes	20 centimes	20 centimes	
Morocco, French	2 fr. 25	1 fr. 25	1 fr. 25	1st Jan. 1939.

The above is to be substituted for the corresponding entries in the list of rates of postage from foreign countries in the 1938–39 Postal Guide.

Surcharges should be collected according to post office markings.

(11) **Insurance Service to Palestine.**—The British Office now advise that the insurance service to the undermentioned places in Palestine is temporarily suspended.

This list should be substituted for that published in the Post Office Weekly Bulletin of the 22nd October and the November Supplement to the Postal Guide:—

(12) **Direct Parcel Post Service to Brazil and Argentina temporarily discontinued.**—Postmasters are informed that owing to the lack of direct sailings to Brazil and Argentina at present, parcels should not be accepted until further notice for transmission by the direct route to these countries.

All parcels for Brazil and Argentina should be properly prepaid in the meantine to go via New York, and sent to Montreal to be included in the mails made up by that office for New York.

(13) **Parcel Post Service to Spain.**—Until further notice the parcel post service to all parts of Continental Spain is still subject to the following conditions:

The name of the province must appear in the address.

The service will be confined to uninsured parcels for the present.

Parcels will be accepted at senders' risk only and compensation will not be payable in respect of loss or damage.

It is essential that instructions for disposal in the event of non-delivery should be given on the customs declaration.

The parcel post service to the Balearic Islands, Spanish Morocco (except British Agencies) and Spanish Guinea is still suspended.

Parcels for places in Spanish Government territory must be plainly marked by the senders "Via England and France" or "Via France."

(3) Trans-Pacific ("Clipper") Air Mail Service.—In order that existing schedules may be brought up to date, Postmasters are informed that the United States Postal Administration advise that there were flights from San Francisco of the "Clipper Service" on January 11th and 18th, 1939.

(4) Careful Treatment to be Accorded Undeliverable Mail.—The attention of the Department has been directed to the fact that in some cases undeliverable letters which bear a request for return to the point of mailing are not being treated in accordance with such request, with the result that considerable inconvenience has been caused the senders.

All concerned are instructed, therefore, to carefully scrutinize undeliverable mail with a view to seeing that any requests for return are strictly complied with.

(5) **Handwritten or typewritten communications, mailed in open envelopes, are subject to letter rates.**—Complaints have been received at the Department that handwritten or typewritten letters in unsealed envelopes, prepaid at the printed matter rate of postage, are being received by firms who are required to pay postage due charges in order to receive delivery of such letters. Apparently, the senders of these communications are under the impression that if the envelope is unsealed, such matter may pass at the third class matter rate of postage.

It is requested, therefore, that Postmasters again direct the attention of patrons of their Office to the fact that handwritten or typewritten communications should be prepaid at the letter rates of postage regardless of whether the envelope is sealed or open.

(6) **Acceptance of Registered articles.**—When a registered article is presented for mailing, every possible care is to be taken to see that:—

(a) it is fully prepaid both as regards ordinary postage charges and registration fee (senders should be informed of the added protection afforded by the higher fees);
(b) a receipt duly completed is given to the sender;
(c) an impression of "Original No." stamp is placed on the cover and a number given the article;
(d) an entry is made in registered record;
(e) the postage stamps are properly cancelled; and
(f) the article is properly date-stamped on the address side, and twice back-stamped upon the closing flap.

(7) **Old Series of Postal Notes to be Returned for Cancellation—Non-Accounting Offices.**—In order to close the files in the Department, Postmasters will carefully examine their stock of Postal Notes and pick out, for cancellation and exchange, all Notes bearing lower numbers than those shown in the following list.

By lower numbers is meant any number lower than the number immediately following the "check letter" preceding the "dash" which indicates the "millions", as well as any number of the same million series lower than the six figure number following the "dash" which indicates the "thousands" and "hundreds"; for example:

K27-906600 is lower than K28-806600

When Notes bearing lower numbers have been picked out, they are to be treated as cancelled Notes and forwarded to the City Office from which supplies are obtained in the same manner as spoiled Notes, with a requisition to exchange them for new Notes of any denomination required.

It is essential that these instructions be given careful attention to ensure that only the Notes bearing lower numbers are returned, and to avoid any unnecessary labour and correspondence.

(8) **Proper cancellation of postage stamps.**—To ensure proper date stamping and cancellation the following points should be observed:—

1. Keep the type in the dating stamp clean by brushing it—a tooth brush will answer the purpose and the stamp can be thoroughly cleaned in a minute or two.
2. Keep the stamping pad well inked.
3. Shake the ink thoroughly before placing it on the pad.
4. Rub the ink well in with the wooden muller.
5. Scrape the pad occasionally to remove the dust which accumulates and becomes clogged with ink.
6. Do not allow the stamping pad to become too much worn to properly hold the ink.

The former rates on letters (3c. first oz. and 2c. each oz. after) and postcards (2c. each) have been discontinued to Hong Kong, Australia and New Zealand and to places served through Australia and New Zealand included in the list above.

The air mail rates via England (Hong Kong 25c. per ½ oz., Australia and New Zealand 35c. per ½ oz.) have been discontinued.

The Department reserves the option of sending letter mails by surface means whenever delivery can be accelerated.

If senders definitely desire conveyance by Trans-Pacific surface route, any endorsation to that effect will be honoured, but the new standard rate will apply.

Letters should not in any case bear air mail labels or other markings to indicate air transmission.

Letters are to be given transmission both east and west by trans-Canada air mail service whenever this will expedite despatch.

Printed papers, commercial papers, samples and parcels will still be forwarded by surface transport at the existing rates of postage for those classes of correspondence.

Invoices, manifests, shipping documents, etc., without covering correspondence, may be sent as commercial papers. The envelopes may be closed with a strip of paper tape vertically across the flap provided they are marked "Contents 'Commercial Papers' may be opened for postal inspection".

If the envelopes containing such commercial papers are endorsed for any particular route or ship, the Post Office will honour the request.

(3) **Bermuda Air Mail Service.**—Postmasters are informed that the United States Post Office advise that the air mail service from New York (Port Washington) to Bermuda began on March 8th, instead of March 5th, as previously advised and as shown in Notice No. 3 of the March supplement.

(4) **Letter Carrier Delivery Service at Kamloops, B.C.**—A letter carrier delivery service has been established at Kamloops, B.C., and the name of this Post Office should be added in alphabetical order to the list in Section 11, page 13, of the Postal Guide, at which points, letters and parcels prepaid for special delivery may be delivered by special messenger. (See also Section 123 of the Postal Guide regarding special delivery of parcels.)

(5) **Special Delivery Fee for Letters reduced to 10 cents.**—With reference to the notice in the March Supplement to the Postal Guide, Postmasters are informed that the reduced Special Delivery fee of 10 cents, effective 1st March, 1939, applies only to letters. There has been no change in fees for the Special Delivery of parcels.

(6) **Special Handling of Shipments of Eggs.**—The attention of Postmasters is directed to the following section quoted from Page 33 of the Postal Guide in regard to the mailing of shipments of eggs by parcel post:—

"As the safe transmission of eggs is a matter of some difficulty shippers are advised to adopt the following method of packing: Use a wooden, papier mâché, or other box of a rigid material with a well-fitting tightly adjusted lid, wrap each egg separately in newspaper or other protecting material, place the eggs on end and fill up the vacant spaces in the box with newspaper or other packing materials so as to prevent the eggs from striking together or against the sides, top or bottom of the box; mark the parcel EGGS."

It is requested that Postmasters as far as possible have care taken to see that shipments of eggs presented for mailing are prepared in the manner described above, and that one of the labels—"EGGS—HANDLE WITH GREAT CARE" is affixed to the parcel.

Fragile parcels of this nature are to be despatched in "fragile" bags and all postal employees should again be reminded not to handle roughly fragile parcels or bags containing fragile parcels.

In piling, loading or unloading mail "fragile" bags should be kept on top.

(7) **Transmission of Day-old Chicks by Parcel Post.**—As the season has commenced during which live day-old chicks may be shipped at parcel post rates at the risk of the sender to places within Canada and the United States, Postmasters are requested again to read the section on page 33 of the Canada Official Postal Guide, outlining the manner in which such shipments should be prepared before acceptance for transmission at parcel post rates.

(8) **Similarity in Post Office Names.**—The attention of Postmasters and Railway Mail Clerks is directed to the similarity in the names of the following post offices:—

Estevan, Sask. Estevan Point, B.C.

Particular care should be exercised in the sortation of mail for these offices.

(See also Section 123 of the Postal Guide regarding special delivery of parcels.)

(4) New Post Office at Favourable Lake, Ontario, to be served by Air Mail.—A new Post Office was opened on the 8th April at Favourable Lake, Ont., situated approximately 140 miles northeast of Berens River, and 125 miles south of Gods Lake, Man., and will be served weekly by air mail.

The rates of postage applicable to mail to or from Island Lake are as follows:—

(6) Local Daylight Saving.—It is necessary in all cases that arrangements shall be made to despatch and receive mails in accordance with the Railway time tables; but in the matter of the time of the opening and closing of post offices the postmaster may be guided by the action of the municipal authorities, that is, in any place where the local authorities decide to adopt daylight saving time the postmaster may do likewise—he should, in all cases, be guided by what is in the best interests of the public service.

(7) Summer Mail Service to Yukon.—Attention is invited to the fact that navigation in the Yukon will open about May 20th next. Parcel Post Service will then be resumed.
POSTMASTERS WILL PLEASE GIVE THE ABOVE EVERY PUBLICITY THROUGH THE PRESS AND OTHERWISE.

(8) **Collection of Deficient Postage.—Postage Due Stamps.**—Before an unpaid or insufficiently prepaid article is delivered, the amount due thereon must be collected from the person to whom delivery is made and postage due stamps to the same amount must then be attached to the article, and cancelled.

Unpaid or insufficiently prepaid letters or other articles must not be placed in lock or call boxes rented to the public, but a card should be placed in the box notifying the addressee that such an article has been received and will be delivered at the wicket on payment of the amount due. This card (No. 33) may be obtained on requisition.

An adequate supply of postage due stamps can be had upon requisition in the usual way and must always be kept on hand. See section 233, page 56, of the Postal Guide.

Postmasters are allowed the usual percentage on postage due stamps.

(9) **Third Class Matter to be Given Careful Attention.**—At this time of the year large quantities of circulars and other items of third class matter are being mailed addressed to "Householder" and Postmasters are reminded that this mail is to be given careful delivery.

Postmasters upon receiving "Householder" matter will please take steps to see that so far as the supply permits, the circulars or other articles thus addressed are delivered at every house in places where there is free delivery by letter carrier, or to every family in places where the patrons of the Post Office call at the office for their mail. On rural mail routes it will be the duty of the mail courier to deliver circulars or other articles of printed matter addressed "Householder" or "Boxholder" into every box on his route, so far as the supply permits. (See Section 88 of the Postal Guide.)

Large firms which have local branches at different places throughout the country are, to an increasing extent, forwarding in bulk to these places advertising matter bearing the name of the local agent, to be placed in the local Post Office for delivery to householders in that place at the ½c. rate of postage. As far as possible provision is made in such cases whereby the Department will notify local Postmasters in advance of such mailings, furnishing them with full particulars in regard to the mailing and the manner in which postage is to be paid. All Postmasters concerned are requested to give very careful attention to the distribution of such circulars and to the collection of postage.

Mutual benefit is to be derived by the Post Office, business men and the public by an active use of circular advertising by business firms, but if this form of advertising is to be successful, careful delivery is essential.

(10) **Householder Matter Should be Folded to a Convenient Size for Distribution to Boxes.**—In order to facilitate the handling of householder matter such as circulars, pamphlets, etc., mailed in large quantities, Postmasters will please request firms preparing such mailings to fold these items to a size which will admit of their being readily distributed into a Post Office box or into a letter drop where delivery is made by letter carrier, or into a rural mail box in the case of distribution on rural routes.

(11) **Return of Undeliverable Circulars.**—Large quantities of circular matter are being mailed bearing requests for return in case of non-delivery and Postmasters are reminded that requests whether printed or written on any articles of third class matter addressed to places in Canada for their return in case of non-delivery should be complied with.

Attention is directed to Section 113 to 117, inclusive, of the Postal Guide, and especially to Section 113 reading as follows:—

"Third class matter when redirected is not liable to any additional postage if handed back to the post office with a changed address at the moment of delivery or as soon as possible thereafter.

"In cases where an article of third class matter would have to be redirected owing to the addressee having removed to another locality and where there is, on the cover, a request for direct return to the sender, in such circumstances this request is to be complied with. The reason for non-delivery and the present location of the addressee (if known) are to be indicated on the cover for the information of the sender. A charge will be made for such direct return equal to the original postage charge, except in cases where a number of circulars, etc., are being returned to the same address in one packet at a time, in which case return postage may be charged on the bulk weight."

(12) **Special Delivery Fee from the United States Reduced to 10 cents.**—On and after the 15th April, 1939, the fee for the special delivery of letters mailed in the United States addressed to the places in Canada listed in Section 11, Page 13, of the Official Postal Guide, will be as follows in addition to the ordinary postage charges:—

10 cents on articles weighing up to 2 pounds.

20 cents on articles weighing from 2 to 10 pounds.

25 cents on articles weighing more than 10 pounds.

POSTMASTERS WILL PLEASE GIVE FULL PUBLICITY TO THE FOLLOWING ANNOUNCEMENTS

Official Medallions to Mark Royal Visit

Official commemorative medallions, in Canadian-mined silver and in bronze made from Canadian copper will be available at small charge to the public through the Post Office, as mementoes of the Royal Visit of Their Majesties King George and Queen Elizabeth.

To further emphasize this epochal occasion, the Prime Minister, Right Honourable W. L. Mackenzie King has approved distribution of 2,500,000 smaller medallions to the school children of Canada. These are now being despatched to distributing centres. They all bear the likenesses of the King and Queen, and on the reverse side a special commemorative design. The Silver Medallions are over $1\frac{1}{4}$ inches in diameter—a little larger than a Canadian 50-cent piece and those of bronze are slightly smaller.

The Honourable N. A. McLarty, K.C., M.P., Postmaster General, has arranged that the Medallions will be obtainable by the public at all post offices (including sub-post offices) or from the letter carriers at city offices.

The Silver Medallions will sell at 50 cents each, and those of bronze at 10 cents each.

Every effort will be made to supply the public demand.

The obverse (face side) of the official commemorative Medallions display, facing left, the conjoint likenesses of Their Majesties wearing their crowns and robes of State, being modelled from a portrait taken at the time of Their Coronation. The likenesses were modelled by Mr. Percy Metcalf at special sittings graciously given him by the King and Queen. Mr. Metcalf is a noted English artist who has designed for the Royal Mint, London.

To a Canadian artist and sculptor of distinction, Mr. Emmanuel Hahn, R.C.A., S.S.C., of Toronto, goes the honour of designing and modelling the reverse side of the commemorative medallions. Mr. Hahn is famed as a designer in this line, other examples of his art being the design of the reverse side of the Jubilee Dollar of 1935, the reverses of the 25-cent and 10-cent pieces struck in 1937, and the reverse side of the new commemorative Silver Dollar that is being minted this year.

The reverse side of the Commemorative Medallion displays a map of the Dominion, surmounted by a Shield containing Canada's Arms, and ensigned by the Imperial Crown. In slight relief across the map of Canada is depicted by lines, the itinerary of the Royal visitors from Atlantic to Pacific, over the Trans-Continental railways. The appropriate inscription surrounding the map is in Latin:—

A Mari Vsque ad Mare Regum et Reginam Canada Salutat

The English translation is "From Sea to Sea Canada Salutes her King and Queen."

As is known, the armorial bearings displayed on Canada's Shield represent the four great races—English, French, Irish and Scotch, who founded the country, all united under the Imperial Crown—National unit being symbolized in the three-leaved sprig of maple, joined in one.

(Continued next page.)

Of interest to Canadians is the fact that the Canadian mined silver from which the Medallions are struck comes from nearly every province, including the Yukon and though it seems a contradiction some of the silver comes from Canada's gold mines—being extracted at the Royal Canadian Mint where the crude bullion is refined, which contains a certain percentage of the white metal. From this silver, extracted from the gold, some of the commemorative Medallions are produced.

Exactly the same designs will be displayed on all Medallions of the commemorative series. The Royal Canadian Mint has been working overtime turning out Medallions and coins and it is likely it will be called on for full 24 hours' operation to meet the demand, and every Medallion is minted with most scrupulous care, each receiving individual handling to prevent scratching or injury to the surface—and is packed in a separate container.

At least one person in every family should obtain one of these artistic and carefully wrought souvenirs which will be cherished in years to come as mementoes of an unique occasion in the history of our country.

New Silver Dollar to Mark Royal Visit

A new Silver Dollar of Commemorative design is being struck by the Royal Canadian Mint to mark the visit of Their Most Gracious Majesties, King George and Queen Elizabeth to the Dominion.

The new Silver Dollar differs in design from the two issues that are now in circulation. The obverse impression (face side) bears the likeness of His Majesty King George the Sixth with the inscription—

"Georgivs VI D: G: Rex et Ind: Imp."

In place of the customary Northern scene—canoe, voyageur, Indian, lake and wooded island—the reverse side shows the Central Block of the Parliament Buildings, Ottawa, with the stately Peace Tower in the centre. Surmounting this design is the inscription—

Fide Svorvm Regnat

below the design is inscribed—

Canada, 1939, 1 Dollar

with a beading encircling; a graining on the edge.
The first Silver Dollar was struck in honour of the Jubilee of the late King George V and the second issue after the accession of His Majesty.

The Silver Dollar will be available early in May at all branches of chartered banks.

Through the co-operation of the Honourable N. A. McLarty, K.C., M.P., Postmaster General, this new coin will be made available at post offices in places where there are no local branch banks.

COPIES OF THE ABOVE ANNOUNCEMENTS MAY BE OBTAINED FOR PUBLICITY PURPOSES FROM THE PUBLIC RELATIONS BRANCH.

MONEY ORDER INFORMATION

IDENTIFICATION OF PAYEES OF MONEY ORDERS AND POSTAL NOTES

The following is an excerpt from the daily bulletin issued to its Postmasters by the United States Postal Administration:

"Chauffeur's Licenses not Conclusive Evidence of Identity of Holders of Money Orders

"The attention of the Department has been drawn to the fact that recently a number of money orders issued for large amounts on stolen forms were paid at post offices to strangers who produced only chauffeur's licenses bearing their photograph as evidence of their identity. When one of the forgers was apprehended he informed a post office inspector that the licence used by him was purchased in Brooklyn, N.Y., for the sum of $2, and he expressed surprise at the ease with which he was able to negotiate money orders on the evidence of identity submitted.

"Investigation has disclosed that illegal licenses are being manufactured and sold to a considerable extent. Postal employees should, therefore, be especially careful when this type of identification is offered by persons presenting money orders for payment."

While the excerpt in question has primarily to deal with payment of United States Postal Orders, Postmasters in Canada should also be guided by these instructions as regards payment of Orders of United States origin. At the same time, the warning contained in the notice should be followed in respect to payment of Canadian Orders and Postal Notes when chauffeur's licences are submitted as an aid to identification, accompanied by a photograph of the holder of the licence, and also when regular driver's permits are submitted as identification.

NAME OF COUNTRY OF PAYMENT MUST BE DESIGNATED IN MONEY ORDER RETURN

The indication in the Money Order Return of the name of the country of payment opposite each Order reported is absolutely essential for the audit of Money Order commission including the exchange in case of Orders drawn on the United States and for the verification of despatch of advices to the Ottawa and Vancouver Exchange offices.

In many cases Money Order Returns are received in which the name of the country of payment is improperly designated or where ditto marks (") are

wrongly employed indicating several Orders as being drawn on the same country, usually Canada, which quite frequently is not the case. Such incorrect designation of the country of payment not only results in delay in audit but adds unnecessary verification costs to the Department.

Since Postmasters are personally responsible for the proper rendition of their accounts, particular care must be taken to see that the entries in the Money Order Return are carefully transcribed from the relative Postmaster's stubs.

(2) **Air Mail from Great Britain.**—The British Post Office announce that they will despatch air mail correspondence for Canada either via Rimouski or via New York whichever offers the quicker delivery.

The British air mail postage rate will be 5d. per ½ oz. (postcards 3d.) and will cover onward conveyance by any available air service in Canada and by United States air services when routed via New York. The rate of 2d. per ½ oz. (postcards 2d.) previously in effect for air mail from Great Britain to Canada, despatched via the St. Lawrence route, has been withdrawn.

(3) **Air Mail Service to Spain.**—The British Post Office has issued an announcement to the effect that, commencing Monday 17th April, an Air Mail Service from the United Kingdom has been established for all parts of Spain. Correspondence intended for this service should be endorsed "Via Air Mail" and be prepaid at the rate of 10 cents each ounce or fraction thereof.

(4) **Changes in Canada Official Postal Guide.**—Postmasters are requested to note the following changes which should be made in their copy of the 1938–39 Guide:—

Memel Territory.....Page 149. Sub-heading—delete "Lithuania" substitute "Germany".

Morocco.....Page 151. Parcel Post (b) French Zone. Observations—in list of offices for which parcels are accepted add in order "Ain Taoudjat".

New Zealand.....Page 155. Parcel Post. Observations—add as a first sentence "An import licence, to be obtained by the addressee in advance, is required for the importation into New Zealand of all goods except gifts and goods not intended for sale, of which the total value in any one importation does not exceed £10.

Turkey.....Page 185. Parcel Post. Observations—"In Asia" add "Kayseri" to the list of offices shown.

(5) **Similarity in Post Office Names.**—The Postmaster, The Pas, Manitoba, reports the receipt of mail at his office addressed to La Pas, Bolivia, South America.

Particular care should therefore be exercised in the sortation of mail intended for delivery at The Pas, or Le Pas, Manitoba, and La Pas, Bolivia, in order to prevent the recurrence of similar missendings in the future.

(6) **Post Office Robberies.**—There is a tendency during the summer season for Postmasters to exercise less vigilance in the protection of their premises with the result that robberies and thefts are sometimes committed which might be avoided with a little extra care. Postmasters will, therefore, please carefully observe the following instructions:—

(1) Doors and windows of Post Office premises should be carefully locked and bolted at night.

(2) Post Office valuables must be given maximum protection at all times, but particularly after the office is closed for the day. If there is a safe on the premises these valuables should be placed therein. Attention is particularly directed to the fact that if investigation following a robbery discloses that sufficient protection was not accorded Post Office property, either through carelessness or indifference, the Postmaster will be required to make good any loss involved.

(3) In all cases where a robbery has been committed the Postmaster should immediately report it by wire or telephone to the District Office and notify the police.

(7) **Rates of Postage on Letters and Postcards from Other Countries to Canada.**—Postmasters are advised that the rates of postage on letters and postcards from the following country are as follows:—

	First weight	Second weight	Postcards	Date
Estonia.....	30 sent	18 sent	18 sent	1 April, 1939

The above is to be substituted for the corresponding entry in the list of rates of postage from foreign countries in the 1938–39 Postal Guide.

Surcharges should be collected according to Post Office markings.

(8) **India—Parcels Addressed to Post Office Box Numbers.**—Postmasters are reminded that parcels for India must always bear the name and full street address whether or not the Post Office Box Number is mentioned.

The same applies to registered letters and articles. Any parcels or registered articles on which the actual address does not appear will be returned to Canada by the Indian Postal Administration.

A full address is not required on ordinary articles when the Post Office Box Number is given.

(9) **Lithuania—Territory of Memel Transferred to Germany.**—In order to facilitate the handling and expedite delivery of mail matter intended for places in the Territory of Memel, formerly Lithuania, which have been transferred to Germany, all correspondence and parcels should have the word "Germany" included in the address, and not "Lithuania".

	3.00 p.m.	Ar.	Marseilles, France		Lv.	7.00 a.m. Sunday

LCT—Local Civil Time.

After Saturday, June 17, the next departure will be on Wednesday, June 28. There was no eastbound flight from New York on Saturday, June 24, and no corresponding westbound flight from Marseilles over this route on Thursday, June 29. After June 28 regular east and westbound flights will operate weekly according to the above schedule.

The air mail rate from Canada for mail intended for conveyance by this service is 30 cents per half ounce, which includes conveyance over Canadian and United States Domestic Air Routes, when necessary, trans-Atlantic air conveyance, air conveyance in Europe as well as to places in the Empire served by the British Empire Air Mail Scheme (See †). Such air mail should be endorsed "Via trans-Atlantic Air Mail from New York".

Further information will be published at a later date in regard to the trans-Atlantic air service to be performed by the Imperial Airways Planes.

(4) **Trans-Atlantic Air Mail Service—Rate from Great Britain.**—The British Post Office announces that the postage rate for air mail despatched from Great Britain to Canada by the trans-Atlantic Air Mail Service is 1s. 3d. per ½ ounce.

Postmasters are informed that trans-Atlantic air mail from Great Britain prepaid at the above rate is to be given air transmission in this country to destination by all air mail services available.

(5) **Empire "ALL UP" Air Mail Scheme.**—Iraq and Kuwait are now included in the Empire "ALL UP" air mail scheme and accordingly all first class mail so addressed will be forwarded beyond England by air as the normal means of conveyance.

The rate of postage in future will be 6 cents per half ounce.

(6) **Letter Carrier Delivery Service at Barrie, Ont.**—A letter carrier delivery service has been established at Barrie, Ont., and the name of this Post Office should be added in alphabetical order to the list in Section 11, page 13, of the Postal Guide, at which points, letters and parcels prepaid for special delivery may be delivered by special messenger. (See also Section 123 of the Postal Guide regarding special delivery of parcels.)

This letter carrier delivery service extends into Allandale, Ont.

(7) **Business Reply Labels.**—Applications have been received by the Department from business firms for permission to include in advertisements inserted by them in newspapers, a printed business reply-label which may be clipped from the advertisement by a customer and pasted on the face of an envelope for return to the firm, in the same manner as 4c. business reply envelopes.

The Department has authorized the use of these labels, and any local firm authorized to mail under the 4c. business reply system, wishing to take advantage of this arrangement, may make application to their local Postmaster.

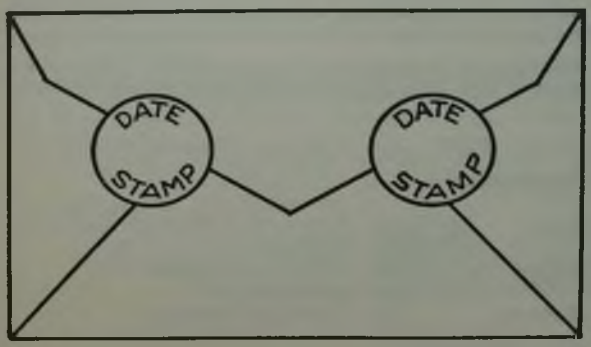
The labels in each case must be similar in design and wording to the present 4c. business reply envelopes with the exception that they should bear the words "Business Reply Label" instead of "Business Reply Envelope".

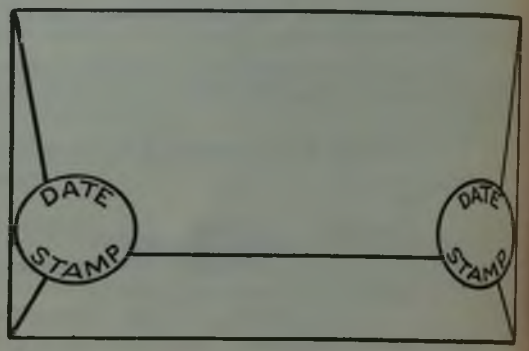
Any envelopes observed in the mails bearing these printed labels are to be promptly forwarded on to the office of destination where the necessary postage will be collected from the addressee at the rate of 4c. per envelope.

(8) **Back-Stamping Registered Letters.**—The importance of exercising care in properly back-stamping registered letters handled by employees is again brought to the special attention of all concerned.

Definite regulations in regard to this matter, as outlined in Section 180, Page 48, of the Canada Postal Guide, should be carefully read again and the orders carried out regularly.

The diagram below indicates the manner in which STEEL DATE-STAMP impressions should be made by the office where registered articles originate, that is,—two impressions over the closing flap, as shown.





These instructions are most important and should be carried out with the greatest care in the treatment of registered letters.

(9) **Treatment of Undeliverable Newspapers.**—The last paragraph of Section 398 of the Postal Guide has been amended to read as follows:—

"If a newspaper or periodical published and posted in the United States continues to be received after the publisher has been notified once on form 67B of a change of address and sufficient time has elapsed to allow the publishers to change the address, the paper or periodical is to be endorsed with a statement to this effect, charged with postage at the rate of 1c. per 2 oz. or fraction thereof and separately returned to the publisher."

Postmasters will please amend their office copies of the Postal Guide accordingly.

(10) **Transmission of Honey Bees by Parcel Post.**—Postmasters are informed that honey bees must not be accepted for transmission in the mails if baggage car service or catch-post service is necessary. Shippers should consult the District Director or District Superintendent of Postal Services for information as to places to which honey bees may be sent.

(11) **New Style of Postal Note.**—Postmasters will note with considerable satisfaction that, in accordance with the policy of the Department whenever possible, to initiate measures which will lessen the work of Postmasters, a new Postal Note is being introduced with a separate coupon to be detached at the Accounting Office which despatches the Note as a paid voucher with the Money Order account.

It is not intended to render the present style of Postal Note obsolete before exhaustion of the stock on hand, but as the old Notes are used up, new style Notes will be supplied.

In order to unify the procedure of cutting off coupons, the coupon is placed on the right hand side of the Note like the Money Order coupon. The sender's receipt is transposed to the left hand side of the Note with a perforation between the receipt and Note proper.

Postmasters and Issuing Officers are requested to be careful in date-stamping and detaching sender's receipts. Paying offices will no longer be required to cut off the serial numbers from the Notes, as the coupons will constitute the paying Postmasters' records of payment.

(12) **Stolen Postal Notes**—

(13) **Similarity in Post Office Names.**—The attention of Postmasters and Railway Mail Clerks is directed to the similarity in the names of the following Post Offices:

Charlesbourg Ouest, P.Q. Cherbourg Ouest, P.Q.

Particular care should be exercised in the sortation of mail for these offices.

(14) **Changes in Canada Official Postal Guide.**—Postmasters are requested to note the following changes which should be made in their copy of the 1938-39 Guide:—

Cayman Islands.....Page 100. Air Mail rate—delete present entry and substitute "10 cents each ¼ ounce".

Colombia.....Pages 102 and 103. Letter Post and Parcel Post. Prohibitions—delete sentence "Plants,... restrictions". Substitute "All nursery stock, including seeds, must be accompanied by a relative Canadian Inspection Certificate and by an import permit issued by the Department of Economics of Colombia."

Morocco.....Page 151, Parcel Post (b) French Zone. Observations—add "Outzagh" to the list of offices for which parcels may be accepted.

Spain.....Page 177. Parcel Post. Prohibitions. After "letters" add "Spanish bank-notes". Last line of same paragraph delete "Spanish bank-notes".

Tristan Da Cunha.....Page 184. "Air Mail Rate"—delete entire entry.

(15) **Rates of Postage on Letters and Postcards from Other Countries to Canada.**—Postmasters are advised that the rates of postage on letters and postcards from the following country are as follows:—

	First Weight	Second Weight	Postcards
Salvador, El	8 centavos each 20 grs.		5 centavos

The above is to be substituted for the corresponding entry in the list of rates of postage from foreign countries in the 1938-39 Postal Guide.

Surcharges should be collected according to Post Office markings.

(5) Air Mail Service to Bermuda.—The Postal Administration of Bermuda reports the frequent receipt of air mail posted in Canada prepaid six cents addressed to Bermuda with the result that the addressees are required to pay double the deficiency in postage on delivery.

Postmasters are, therefore, requested to bring to the attention of the mailing public, whenever possible, that the Air Mail rate from Canada to Bermuda is 15 cents per ¼ ounce.

(6) Tying Letter Packages.—It is evident that necessity still exists for definite instruction and uniform practice in the procedure of tying letter packages. Packages carelessly tied or not face-slipped properly result in serious interruptions, additional work in re-sortation, congested case equipment, waste of twine and breaks continuity in tracing.

This instruction campaign should be conducted by supervisory officials and have as its objectives:—

(a) Security—so that the package will be carried through to destination intact over any distance, irrespective of the number of times handled.

(b) Avoiding damage, by the binding cord, in any way to the letters contained in the package.

(c) Preventing any waste in twine in the process of tying or leaving long ends above the knot.

(d) Properly tying the package without utilizing undue time or energy.

Careful tests of various methods of tying up packages indicate that the quickest and most efficient mode is to:—

1. Hold the package in the left hand, face up, lengthwise from the body.
2. Pass the end of the cord under the index finger.
3. Carry the cord with the right hand OVER THE FRONT of the packet, and back towards the body, thence underneath, and twist to the left after touching the finger underneath.
4. Tighten the cord and continue the motion twice around the letters a short way, then tie the knot.
5. In tying out mail not more than sixty letters should be placed in one package, and if the twine is drawn twice each way, that is the short way and the long way, and firmly tightened and knotted, it will hold a package of letters securely.

It will be found after examination that the string around the long way of the letters is underneath and cannot slip up, also that the strands of the cord underneath are bound in such a way that there is no chance of slipping.

(7) Official Commemorative Medallions.—A supply of Official Medallions commemorating the [illegible] of Their Majesties King George and Queen Elizabeth is still available and every effort should be made to advise the public of this fact so that those desiring to obtain one of these mementoes of the Royal [illegible] may do so.

It is suggested that the Medallions be specially brought to the attention of tourists purchasing stamps in the Post Office.

If the Postmaster has not a sufficient supply on hand to meet demands, he may requisition the Depot for the quantity required.

(8) **Cutting of Cotton Cord on Mail Bags.**—The Equipment and Supply Branch advise that a considerable number of combination rope locks are being returned to the Branch, and it is ascertained that these have been removed from mail bags by cutting the cord, which is contrary to Departmental regulations.

In view of the foregoing all concerned are requested to issue instructions that when locks cannot be operated satisfactorily with key, the bags should be ripped at the seam, thereby obviating the necessity of cutting the cord, which means the replacement of same at a considerable cost to the Department.

(9) **Changes in Canada Official Postal Guide.**—Postmasters are requested to note the following changes which should be made in their copy of the 1938-39 Canada Postal Guide:—

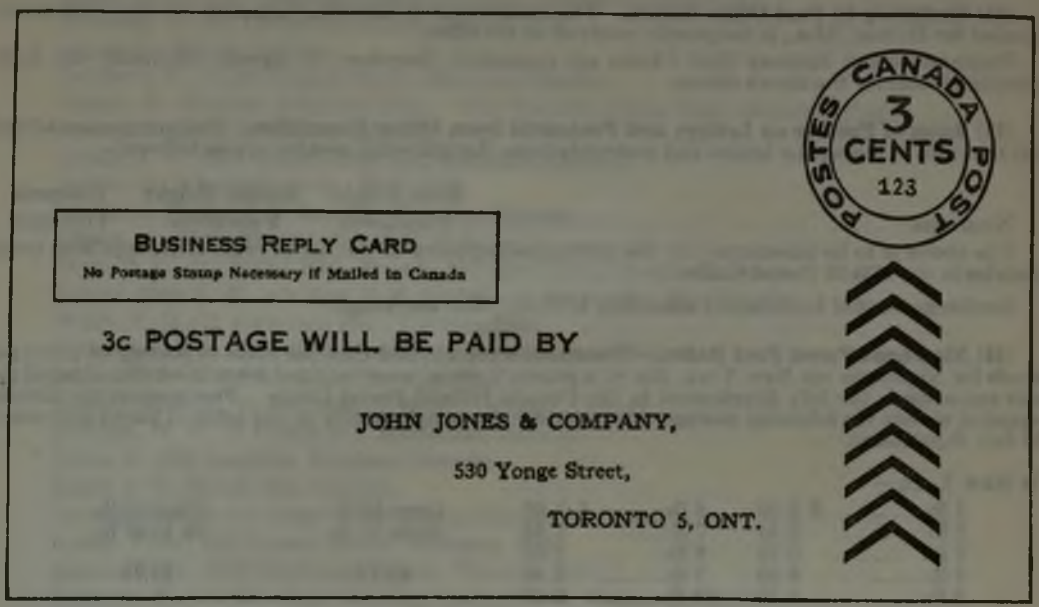
(5) **Franking and Free Mail Matter Regulations do not apply to Air Mail Services.**—With reference to previous notices appearing in Monthly Supplements in connection with the above, Postmasters are reminded that the free transmission of official correspondence mentioned under "Franking and Free Mail Matter" commencing on page 46 of the 1938-39 Postal Guide DOES NOT APPLY to air mail services. If transmission by the Trans-Canada or any other Air Mail Service is desired, such correspondence should be designated "Air Mail—Par Avion" and the air mail rate applicable MUST BE PREPAID.

Postmasters should give this all local publicity possible.

(6) **Business Reply Postcards subject to 3c. postage.**—Postmasters are informed that Business Reply Postcards are now subject to 3c. postage.

In future Business Reply Postcards will have the words "BUSINESS REPLY POSTCARDS 3c. postage will be paid by....." and the name and address of the firm printed on the face of the card and bear a return postage impression as follows:—



As the reply postage will be paid by the addressee, such cards are to be date-stamped at the office of posting and promptly forwarded to the addresses printed on the cards, without being rated postage due.

(7) **A Letter or any other article of Mail Matter once posted becomes the property of the person to whom it is addressed.** Section 247 of the Postal Guide reads as follows:—A letter or any other article of mail matter once posted becomes the property of the person to whom it is addressed, and must be forwarded according to its directions. On no application, however urgent, can it be delivered back to the writer, or to any other person.

Postmasters should bring this notice to the attention of patrons when requests are made for the return of a letter or other article of mail matter.

(8) **Insurance of Parcels for transmission via Air Mail Service.**—Postmasters are informed that parcels intended for transmission over an air mail route may be insured in the regular way provided that the air parcel post rate applicable to such route is paid.

Parcels cannot be insured if intended for transmission over routes on which there is no air parcel post rate, such as the trans-Canada Air Mail Service or points in the United States. If protection is desired on such parcels the senders should register same.

Postmasters will please amend sub-section (c) of Section 145 of the Postal Guide, to read as follows: "Parcels for transmission over an air mail route may be insured in the regular manner when prepaid at the air parcel post rate applicable to such route."

(9) **Yukon Mails—Winter Service.**—During the season of closed navigation on the Yukon River, which extends approximately from the 1st of October to the 31st May, parcel post to the Yukon will be suspended, except for the Post Offices of Carcross, White Horse and Champagne. (Parcel post to Champagne will be suspended from December 1, 1939 to March 31, 1940).

Postmasters will be careful to see that during the season of closed navigation matter prepaid at parcel post rates is not accepted at their offices addressed to places in the Yukon other than Carcross and White Horse.

Matter prepaid at ordinary parcel post rates intended for other points in the Yukon may be addressed to White Horse, and the addressee may make arrangements with the Transportation Company operating between White Horse and Dawson to convey the parcels from White Horse to destination.

Postmasters will please give this every publicity.

(10) Parcels Prepaid at Parcel Post Rates not forwarded to Telegraph Creek, B.C., during the season of closed navigation.—Postmasters are informed that during the season of closed navigation, which extends approximately from the 1st October to the 1st April, the weight of mail carried on this route is limited.

In the circumstances, persons tendering parcels for mailing prepaid at parcel post rates for this office should be advised that the parcels will be held at Vancouver during the season of closed navigation.

(11) Similarity in Post Office Names.—The Postmaster at Hatton, Sask., advises that mail matter intended for Hutton, Alta., is frequently received at his office.

Postmasters and Railway Mail Clerks are requested, therefore, to exercise particular care in the sortation of mail for the above offices.

(12) Rates of Postage on Letters and Postcards from Other Countries.—Postmasters are advised that the rates of postage on letters and postcards from the following country are as follows:—

	First Weight	Second Weight	Postcards
Nicaragua.....	8 centavos	8 centavos	4 centavos

The above is to be substituted for the corresponding entry in the list of rates of postage from foreign countries in the 1938-39 Postal Guide.

Surcharges should be collected according to Post Office markings.

(13) Nicaragua Parcel Post Rates.—Postmasters are advised that the rates of postage on parcel post parcels for Nicaragua via New York, due to a printer's error, were omitted from the table of parcel post rates appearing in the July Supplement to the Canada Official Postal Guide. Postmasters are therefore requested to note the following postage rates opposite the relative entry in the table of parcel post rates in the July Supplement.

(15) Parcel Post to Egypt, Anglo-Egyptian Sudan and Countries via Egypt.—Postmasters are reminded that a request has been received from the Postal Administration of Egypt that the insured value be shown on all parcels destined for delivery in Egypt, Anglo-Egyptian Sudan, and on insured parcels sent in transit through Egypt.

Postmasters will, therefore, please see that this information is shown in future on the outside of all parcels for Egypt, Anglo-Egyptian Sudan and on parcels sent via Egypt, in order to prevent the parcels being returned with resultant delay.

The trans-Atlantic air service performed by the Pan-American Airways Company between Southampton and New York via Shediac terminated with the departures from New York and Foynes of the 30th September and 4th October, respectively.

Postmasters will please see that this is given all local publicity possible.

(5) Bermuda Air Mail Service.—Postmasters are informed that the air mail service from New York (Port Washington) to Bermuda will operate on the following schedule from October 3rd.

Friday Tuesday			Sunday, Wednesday
10.30 a.m.	Lv.	NEW YORK, N.Y. (E.T.) (Port Washington) Ar.	2.00 p.m.
4.30 p.m.	Ar.	HAMILTON, Bermuda (60 M.T.) Lv.	9.30 a.m.

(6) Extensions of Franking Privilege.—Postmasters are informed that the franking privilege has been extended to the following:

Censorship Co-ordination Committee, Ottawa.
War-Time Prices and Trade Board, Ottawa.
Foreign Exchange Control Board, Ottawa.

Correspondence on public business mailed by or addressed to the above may pass free of postage in Canada.

(7) Carcasses of Fowl forwarded for Examination to the Poultry Pathological Laboratory, Central Experimental Farm, Ottawa.—Information has been received from the Department of Agriculture that carcasses of fowl which are being forwarded for examination, to the Poultry Pathological Laboratory Central Experimental Farm, Ottawa, have been accepted by some Postmasters free of postage.

In this connection, the attention of Postmasters is directed to the fact that such shipments are not entitled to free transmission in the mails but must be prepaid with postage in the usual manner.

(8) Postage Stamps are not to be used in making Remittances.—Postmasters are required to take every opportunity to remind patrons of the Post Office that postage stamps are not to be used for remittance purposes, and that the Department provides facilities for making safe remittances by means of money orders and postal notes.

(9) Acceptance of Cheques at Post Offices.—Special attention is called to notice published in the Monthly Supplement to Canada Official Postal Guide for June, 1938, regarding the acceptance of cheques by Postmasters.

Recently a Postmaster cashed an "accepted" cheque without having the holder of it properly identified. It was later found out that the certification of the cheque had been forged. This shows how necessary it is for Postmasters to take every precaution before they issue Money Orders or part with postal supplies.

As pointed out in the notice referred to above, the Department will have to hold any Postmaster responsible in the event of loss when he accepts other than currency in the transaction of Post Office business.

(10) Re Form 67B used to notify Publishers that copies of their Publications are undeliverable.—Attention has again been directed to the fact that Postmasters, when forwarding form 67B to publishers notifying them that copies of their publications are undeliverable, frequently neglect to insert "key numbers" (composed of numbers and letters on the address label of the publications).

This information is required by publishers in order that they may properly correct their subscription lists, and it is requested that Postmasters exercise care to see that the "key numbers" are inserted on form 67B in every case.

Postmasters are reminded that form 67B bears the printed instructions—

"Quote all letters and numbers which appear on the address label or wrapper",

and they will kindly instruct all concerned in their offices that this requirement is to be strictly adhered to.

(11) 8·55 oz. White Army Duck Air Mail Bags.—The Equipment and Supply Branch advise that in view of the fact that aeroplane linen bags, natural and blue shade, have been issued for Air Mail service, all bags manufactured of the above mentioned white army duck, fitted with four rings, and stencilled:

" Crown
October 16, 1937
Canada
P.O.
I "

should be returned to the nearest Mail Bag Depository.

The co-operation of all concerned is requested, please.

(12) Despatch of Empty Bags to Mail Bag Depositories.—Postmasters of Accounting Post Offices are reminded of the instructions on the proper use of label 100½. Empty bags forwarded to Mail Bag Depositories, under label 100½—"Empty Bags—Sorted and Examined"—MUST ALL BE OF THE SAME KIND AS THE OUTER BAG in order that the Depositories may re-issue these bags without further examination.

Mixed or defective bags which have been thoroughly examined may be forwarded under label "Empty Bags—Mixed".

(13) Rates of Postage on Letters and Postcards from Other Countries.—Postmasters are advised that the rates of postage on letters and postcards from the following countries are as follows:—

	1st weight	2nd weight	Postcards	Date

(7) Exportation of Gold by Mail.—Postmasters are reminded that the exportation of gold coin, gold bullion or fine gold bars from the Dominion of Canada is specifically prohibited except under licence issued by the Minister of Finance to a Canadian Chartered Bank. It should be noted that all such shipments also require a licence issued by the Foreign Exchange Control Board, forms for which may be obtained on application to any chartered bank.

Postmasters must carefully scrutinize any items addressed to the United States or to any other country which may possibly contain gold.

(8) Registered Articles Damaged by Dating Stamps.—The Inspection Service notes an increasing number of claims for payment of indemnity for the damage to the contents of small registered articles.

The contents are in most cases spectacles or fountain pens which are damaged when the article is date-stamped with a steel dating stamp.

Postmasters and employees must exercise the utmost care when date-stamping such articles. The date-stamp impression should be made by pressing lightly and not by striking the articles with the stamp.

(9) Proper Cancellation of Postage Stamps.—To ensure proper date stamping and cancellation the following points should be observed:—

1. Keep the type in the dating stamp clean by brushing it—a tooth brush will answer the purpose and the stamp can be thoroughly cleaned in a minute or two.
2. Keep the stamping pad well inked.
3. Shake the ink thoroughly before placing it on the pad.
4. Rub the ink well in with the wooden muller.
5. Scrape the pad occasionally to remove the dust which accumulates and becomes clogged with ink.
6. Do not allow the stamping pad to become too much worn to properly hold the ink.

(10) Certain Fragile Articles to be Registered Against Loss Only.—When a packet is tendered for registration enquiry should be made as to the nature of the contents. When the contents are of such a nature as to preclude the payment of indemnity for damage, viz., glassware, (especially spectacles), liquids, watches, etc. (See Section 192, page 49, of the Canada Official Postal Guide), the sender is to be so advised and the Registration Certificate endorsed "Registered against loss only". In other "Fragile" cases, the Postmaster must satisfy himself that the contents are fully protected.

(11) Third Class Matter to be given careful attention.—At this time of the year large quantities of circulars and other items of third class matter are being mailed addressed to "Householder" and Postmasters are reminded that this mail is to be given careful delivery.

Postmasters upon receiving "Householder" matter will please take steps to see that so far as the supply permits, the circulars or other articles thus addressed are delivered at every house in places where there is free delivery by letter carrier, or to every family in places where the patrons of the Post Office call at the office for their mail. On rural mail routes it will be the duty of the mail courier to deliver circulars or other articles of printed matter addressed "Householder" or "Boxholder" into every box on his route, so far as the supply permits (see section 88 of the Postal Guide).

Large firms which have local branches at different places throughout the country are, to an increasing extent, forwarding in bulk to these places advertising matter bearing the name of the local agent, to be placed in the local Post Office for delivery to householders in that place at the ½c. rate of postage. As far as possible provision is made in such cases whereby the Department will notify local Postmasters in advance of such mailings, furnishing them with full particulars in regard to the mailing and the manner in which postage is to be paid. All Postmasters concerned are requested to give very careful attention to the distribution of such circulars and to the collection of postage.

Mutual benefit is to be derived by the Post Office, businessmen and the public, by an active use of circular advertising by business firms, but if this form of advertising is to be successful, careful delivery is essential.

(12) **Mail Bags.**—The Equipment and Supply Branch advise that as the time is almost at hand when the Department will be called upon to readily provide mail bags for the Service for the Fall and Christmas Season, it will be necessary to inaugurate a systematic and uniform effort to call in from the Service every mail bag not actually in use, and for this purpose officials are requested to immediately issue instructions to those concerned to forward to the nearest Mail Bag Depository every available bag not required for immediate use, and which is fit for stock or repair.

The Mail Bag Depositories are located at:—Toronto, Vancouver, London, Ont., Montreal, Ottawa, Calgary, Winnipeg, Saint John, N.B., and Moncton.

The above is to be substituted for the corresponding entry in the list of rates of postage from foreign countries in the 1938-39 Postal Guide.

Surcharges should be collected according to Post Office markings.

(15) **France—Import Restrictions on Parcel Post.**—The French Postal Administration advises that, until further notice, the importation of all goods into France by parcel post is subject to prior authority from the Ministry of Commerce.

The only exception is in the case of parcels of a non-commercial character, addressed to private individuals, but batches of parcels may not be sent by the same post or to the same addressee.

(16) Parcel Post Service to Countries via France Suspended.—Postmasters are informed that the parcel post service to countries via France has been suspended.

In future all parcels for Sweden and via Sweden for the above countries should be routed via England and be properly prepaid for transmission by that route.

(18) Parcel Post Insurance to Palestine.—The insurance service for parcel post has been restored to Jenin, Nablus and Tul Karm. Postmasters should delete these offices from the list of places to which insurance is suspended, published in the Post Office Weekly Bulletin of the 17th December, 1938, and the January, 1939, Monthly Supplement to the Postal Guide.

(6) **Air Mail Postage Rate from Bermuda to Canada.**—Postmasters are advised that the rate of postage on air mail letters from Bermuda addressed to Canada has been increased to one shilling per ½ ounce, effective the 25th October, 1939. Such air mail letters should be given air conveyance in Canada and surcharges are to be collected according to Post Office markings.

(7) **Correspondence Addressed to Branches of Foreign Exchange Control Board at Montreal Toronto and Vancouver.**—The Foreign Exchange Control Board has established Branch Offices at Montreal, Toronto and Vancouver.

Correspondence addressed to these Branches should be prepaid by the senders in the usual manner Special arrangements have been made with these Branches for the collection of postage on short paid or unpaid correspondence.

Postmasters are, therefore, requested to see that all correspondence for these Branches, whether fully prepaid or insufficiently prepaid, is promptly forwarded to destination.

There has been no change as regards correspondence mailed by or addressed to the Foreign Exchange Control Board at Ottawa, which correspondence is entitled to free transmission in the mails.

(8) **How to Increase the Revenue of Your Post Office.**—The following article appeared in a recent edition of "The Postal Bulletin" issued by the United States Postal Administration and is reprinted here as being of interest to all Postal Employees:—

"ADVERTISING THE AIR MAIL SERVICE

In previous Bulletin notices, attention has been called to the fact that an increase of only one air-mail letter per day at each of the forty-six-thousand-odd post offices and stations would amount to over $1,000,000 a year increase in air-mail revenue. That it is possible to increase the sale of air-mail stamps by intelligent initiative on the part of postmasters and without the expenditure of a great deal of time and effort is evidenced by actual examples of such advertising. There are quoted below extracts from letters from two postmasters, one of whom is located at a comparatively small office. The Department greatly appreciates the work of these postmasters. It is this type of co-operation that has resulted in the splendid increases in revenues of the Air Mail Service:

I came over to the postmasters' convention and was very much taken up with the idea of advertising the air mail. I came back and at once started thinking for myself. First I placed a saucer on the counter at the stamp window, and put some air-mail stamps in it with a small slip on the edge reading: IF YOUR LETTER IS IMPORTANT IT RATES AN AIR MAIL STAMP. Twenty-one were sold the first 2 hours, and many questions asked. On a blue placard reading: "It pays to fly", I put a slip asking the people to request an answer by air mail. I change these slips often, and in July our sales of the 6-cent air mail stamp was 100; August, 100; September, 75; October 400. I am trying to make a mark better for November. I have instructed each clerk to talk air mail. It can help in so many ways.

About a year ago we had some artistic signs painted setting forth the advantages of the Air Mail Service and the convenience of postage stamp books. These were placed strategically near the stamp window where all patrons buying stamps could not help but see. The window clerks kept telling me that these signs were changing the minds of so many patrons who originally meant to buy one stamp only, that I made a check. My investigation reveals that from September 1, 1938, to September 1, 1939, our stamp book sales jumped 48 per cent over the previous year, September 1, 1937, to September 1, 1938, and that our air mail stamp sales increased 53 per cent for the same periods.

These exact methods may not produce results at every office but it is possible for every postmaster to devise some method of increasing air mail patronage, and it is requested that each postmaster analyse the local situation with a view to taking steps to educate the public concerning the advantages of this service. I am sure you can be counted on to do so."

It will be noted the article directs attention to the possibilities of increasing Air Mail revenue by the posting of only one additional Air Mail letter a day at each Post Office in the country. In terms of Canadian Postal revenue it may be pointed out that if only one extra Air Mail letter was posted each day at each of the 12,514 Post Offices in Canada, the postage stamp sales would be increased by $750.84 per day. On this same basis, for a period of one year (365 days) the revenue from Air Mail postage would be increased by $274,056.60.

One extra Air Mail letter per day at each Post Office does not seem like a very difficult objective to attain, yet the above statement indicates the amazing revenue increase it would bring about. It will be a simple matter for each Postmaster to calculate the possibilities of increasing the revenue of his Office through a more extensive use of this newest Public Service—"Air Mail". Advantage should be taken of every opportunity to point out the benefits of this Service to patrons of the Post Office.

In carrying on a publicity campaign the Public Relations Branch will gladly co-operate.

(9) **An Adequate Supply of Postal Notes Must be Maintained.**—With the approach of the Christmas Season, and the consequent increase in Postal Note business, the attention of Postmasters is invited to the necessity of procuring an adequate supply of Postal Note denominations to meet the requirements of his office.

(10) **Winter Parcel Post Service in the Yukon Season 1939-40.**—With reference to the notice in the November Supplement to the Postal Guide, respecting a weekly air stage service in the Yukon during the winter of 1939-40 over which parcels are transmissible, Postmasters are informed that the rate of 30c. for the first pound plus 25c. additional for each pound after up to 25 pounds, is applicable to parcels mailed at any point in Canada addressed for delivery at Dawson, Carmacks, Fort Selkirk and Mayo Landing, Yukon. The same rate of postage also applies to parcels mailed at these post offices addressed for delivery at points outside of the Yukon.

(11) **Post Offices Transferred from Edmonton to Vancouver Postal District.**—Postmasters are informed that the Prince George-Ware Air Stage Service, which has hitherto been under the jurisdiction of the District Superintendent of Postal Service at Edmonton, has been transferred to the Vancouver Postal District, and, as a consequence, the following Post Offices;

Finlay Forks,
Fort Grahame,
Ware,

served by the above service, are under the jurisdiction of the District Director of Postal Services at Vancouver, effective the 1st November, 1939.

(12) **Early Mailing-Co-operation.**—The approach of the Christmas Season again presents the problem of handling the great volume of mail received at that time.

With a view to relieving the congestion of mail during the Christmas period, Postmasters should seek at an early date the co-operation of business firms so as to clear away whenever possible all mailings which can be made in advance of the heaviest rush period.

If a firm is contemplating an extensive advertising campaign by mail, it would be in their own interest to mail well in advance of the Christmas rush, The value of having advertising folders, catalogues, etc., delivered to customers or prospective buyers prior to the usual seasonal "early shopping", so strongly advocated by merchants, is evident.

The practice of many firms of sending out calendars, mementos, etc., just prior to Christmas adds considerably to the difficulty of keeping the usual seasonal congestion under control. If approached in the matter, such firms might agree to mail earlier than usual, or, if this is not possible, to hold such mailings until the main rush is over.

An endeavour should be made to enlist the co-operation of local business houses.

(13) **Mailing of Parcels of Diseased Tissue.**—Information has been received at the Department that persons are forwarding to the Laboratories of the Department of Agriculture at Ottawa and Hull, parcels containing diseased tissues for examination and, in this connection, the attention of Postmasters is directed to the fact that under no circumstances is such matter to be accepted for mailing unless properly packed in accordance with the regulations governing the mailing of this class of matter, as outlined in Section 137, Page 33 of the 1938-39 Postal Guide, and prepaid with the necessary postage.

The Department of Agriculture have advised that their Department does not offer any special service for the examination of diseased animals, except in cases where a general outbreak of some disease is suspected in a particular district and it is requested that Postmasters bring this fact to the attention of the mailers of parcels containing diseased tissue.

(14) **Householder Matter should be folded to a Convenient Size for Distribution to Boxes.**—In order to facilitate the handling of householder matter such as circulars, pamphlets, etc., mailed in large quantities, Postmasters are requested to require firms preparing such mailings to fold these items to a size which will admit of their being readily distributed into a Post Office box or into a letter drop where delivery is made by letter carrier, or into a rural mail box in the case of distribution on rural routes.

(15) **Acceptance of Registered Articles.**—When a registered article is presented for mailing, every possible care is to be taken to see that—

(a) It is fully prepaid both as regards ordinary postage charges and registration fee (sender should be informed of the added protection afforded by the higher fees);

(b) a receipt duly completed is given to the sender;

(c) an impression of "Original No." stamp is placed on the cover and a number given the article;

(d) an entry is made in registered record;

(e) the postage stamps are properly cancelled; and

(f) the article is properly date-stamped on the address side, and twice back-stamped upon the closing flap.

(16) **Small and Oversize Cards and Envelopes.**—Postmasters should bring to the attention of the mailing public the objections to the use of small and oversize cards and envelopes, which at any time are difficult to handle, but particularly so during the busy Christmas and New Year's season.

In urging the public to use cards and envelopes larger than 3 inches by 4 inches, the following objections to the smaller size should be pointed out:—

NOTICE—*(No. 16 continued next page.)*

(16) Small and Oversize Cards and Envelopes—concluded

1. Small envelopes and cards cannot be satisfactorily passed through the electric cancelling machines; this, at many offices, means a slower cancellation and general handling.

2. The cancellation mark in many cases obliterates part of the address, with the possibility that the articles may be misdelivered or at least delayed.

3. The small size renders the sortation and making up of bundles more difficult and hampers the work of the office at a time when speed is essential.

4. Owing to small size there is a greater possibility of loss, as small cards or envelopes may fall out of the bundle to which they are tied.

Oversize cards and envelopes (larger than 4⅛ inches by 9½ inches) have the following objections:—

1. Difficulty of cancelling by machine.

2. Too large in many cases to be readily sorted into standard sorting cases without folding with consequent slower handling and in the case of cards—damage.

3. Large cards and envelopes project from bundle and when tied are apt to be cut at edges.

In general, all types of freak cards and envelopes cause difficulty and should be avoided; this warning applies particularly to coloured cards, which render the reading of addresses a matter of considerable difficulty.

POSTMASTERS ARE REQUESTED TO DO EVERYTHING IN THEIR POWER TO BRING THE ABOVE TO THE ATTENTION OF THE PUBLIC.

(17) Collection of Deficient Postage—Postage Due Stamps.—Before an unpaid or insufficiently prepaid article is delivered, the amount due thereon must be collected from the person to whom delivery is made, and postage due stamps to the same amount must then be attached to the article and cancelled.

Unpaid or insufficiently prepaid letters or other articles must not be placed in lock or call boxes rented to the public, but a card should be placed in the box notifying the addressee that such an article has been received and will be delivered at the wicket on payment of the amount due.

This card (No. 33) may be obtained on requisition.

An adequate supply of postage due stamps can be had upon requisition in the usual way and must always be kept on hand. See Section 233, page 56 of the Canada Official Postal Guide.

Postmasters are allowed the usual percentage on postage due stamps.

(18) Cancelling of Postage Stamps on Parcels.—Postmasters are reminded that postage stamps on parcels should be properly cancelled. It is noted that in some instances the stamps are not cancelled or in cases where the roller hand-cancelling stamp is used the stamps are missed or very lightly touched.

The above is noted particularly in connection with parcels the contents of which are of a pliant nature such as packages containing wool, silks and other matter of a light nature.

Stamps poorly cancelled may easily be removed and illegally used a second time, resulting in a serious loss of revenue. Postmasters are therefore requested to see that the postage stamps on parcels are properly cancelled before they are despatched.

(19) Improper Packing to be brought to the attention of Senders.—Ordinary wrapping paper is not sufficient to protect a parcel during transmission. If a parcel is worth mailing it is worth careful preparation. In addition to using packing material to protect the contents, the parcel should be wrapped in several layers of heavy wrapping paper and well tied with strong twine for protection against ordinary handling during course of transmission.

When parcels mailed by firms are received at Post Offices, improperly packed, the attention of the firms should be directed to the matter in order that the employees responsible might exercise greater care in the future. Business firms and the general public will no doubt be glad to have such cases brought to their attention with the result that a better service can be provided.

(20) Rubber Stamp Year Type, and Model Dater Year Bands.—The Equipment and Supply Branch request that those concerned carefully examine all rubber daters and boxes of type issued for same in order to ascertain if 1940 year type is included. If not, requisition should be made direct to Equipment and Supply Branch for same.

In the case of model daters it is also suggested that an examination be made of this equipment to find out if year "1940" appears on bands, and if not, the dater should immediately be forwarded to Equipment and Supply Branch so that new bands be placed thereon.

(21) Similarity in Post Office Names.—The attention of Postmasters and Railway Mail Clerks is directed to the similarity in the names of the following Post Offices:

Arthur, Ont.	Athens, Ont.
Cadillac, P.Q.	Cadillac, Sask.
Cascades, P.Q.	Cascades Point, P.Q.
Duffield, Alta.	Suffield, Alta.
Kingsville, Ont.	Kingsmill, Ont.
Whitby, Ont.	Whitney, Ont.

Particular care should be exercised in the sortation of mail for these offices.

(22) **Perishable Articles to be kept from Heat.**—The attention of the service is once more directed to the harmful effect of heat on many articles sent through the mails. This warning is repeated because with the commencement of cool weather, post offices and railway mail cars will be heated and care will therefore have to be exercised in the piling of bags containing articles liable to injury by heat. Parcels containing such articles should be distinctly labelled "Perishable" and the bags in which they are placed similarly marked. Under no circumstances should these "Perishable" parcels or bags be placed in close proximity to the heating apparatus.

(23) **International Reply Coupons.**—Postmasters are informed that, until further notice, International Reply Coupons issued in Poland, as well as those issued in Germany, Austria, Czechoslovakia (Bohemia, Moravia and Slovakia) and Danzig must not now be exchanged. Any person presenting such coupons should be informed that they are not exchangeable in this country.

(24) **Changes in Canada Official Postal Guide:**—Postmasters are requested to note the following changes, which should be made in their copy of the 1938-1939 Canada Postal Guide.

Lithuania.....Page 143. Letter Post, Prohibitions, (articles subject to special restrictions)—delete reference to Lithuanian banknotes. Substitute "Coin, gold jewellery, platinum, precious stones, Banknotes and Currency Notes (except on presentation of a special authorization from the Commission des Valeurs) and Documents payable to bearer, except in registered letters."

Page 143. Parcel Post, Observations—insert as a first paragraph "An import license issued by the Commission du Commerce Exterieur, Kaunas, is required for the importation of all goods."

Morocco.....Page 150. Letter Post, Prohibitions (b) French zone. After "Coin", delete present entry, Substitute, "The importation of all goods is prohibited except under license".

Morocco.....Page 151. Parcel Post, (b) French zone, Prohibitions, delete entire entry, Substitute "The importation of all goods is prohibited except under License".

(25) **Rates of Postage on Letters and Postcards from Other Countries.**—Postmasters are advised that the rates of postage on letters and postcards from the following countries are as follows:—

	1st weight	2nd weight	Postcards
Palestine	15 mils	9 mils	8 mils
Australia	2 pence per ounce		1½ pence

The above is to be substituted for the corresponding entries in the list of rates of postage from foreign countries in the 1938-39 Postal Guide.

Surcharges should be collected according to post office markings.

(26) **Christmas Mail for the United States.—**

Parcel Post weighing over 10 pounds and up to 15 pounds.....$1.75 per parcel.

All packets paid at printed matter rate.....
} Enclose a Customs Declaration or invoice.

Parcel Post over 8 ozs., up to 15 lb.—

(a) For non-commercial shipments.....Affix a Customs Declaration.

(b) For commercial shipments.....Affix a Customs Declaration and enclose an invoice.

During the Christmas season there is an unusual parcel congestion at United States Customs points. To ensure delivery before Christmas parcels for the United States should be mailed NOT LATER THAN THE SECOND WEEK OF DECEMBER.

ATTENTION TO THESE DETAILS WILL FACILITATE CLEARANCE THROUGH THE UNITED STATES CUSTOMS.

(27) **Christmas Mails.**—On account of the International situation, particulars in regard to sailing dates of ships carrying mails to other countries cannot be announced, and it is not possible to advertise the latest opportunities for the despatch of Christmas mails for destinations which require ocean transportation.

Some delay in the transmission of mails to such countries may occur owing to restrictions in overseas transport services and members of the public who make enquiry on the subject should be informed that no information can be given regarding the despatch of mails for places abroad but that they should post their correspondence as early as possible.

(28) **Parcels Addressed to Great Britain.**—In connection with parcels addressed to Great Britain and received from Canada, the British Postal Authorities advise that considerable difficulty is experienced in dealing with parcels sent to their country from Canada by post because the particulars on the relative Customs Declaration forms are frequently incomplete or illegible. This is said to be due in many cases to the forms having become torn during transmission or to the entries having been made in pencil.

The attention of the senders should be drawn, therefore, to the fact that special care should be exercised, especially during the coming Christmas season, to have the adhesive Customs Declaration (Form 91B) accurately and legibly prepared and Postmasters are requested to be careful to see that these forms are securely and firmly affixed to every parcel addressed to Great Britain.

(29) **Assist your exchange Offices in Christmas Mailings for Overseas—IMPORTANT.**—Now that mailings for Great Britain and overseas countries are approaching the peak of the Christmas rush period, attention is directed to the following points, the non-observance of which causes embarrassment to the Canadian despatching exchange offices where the extra work is very heavy at this time. Postmasters and all postal employees are asked to assist our exchange offices by endeavouring to see that these points are observed.

Mark the words "Letter Rate" on any packages prepaid at letter rate.

Small boxes of cake should be prepaid at either letter rate or parcel post rate. These should be well packed. In practically every mail, cake is found loose in the bag.

Calendars, lithographs, engravings and photographs for Italy in packages weighing over 3½ ounces must be prepaid at parcel post rates.

Samples, photographs and printed matter may be insured if prepaid at parcel post rates.

Parcels for Northern Ireland (Counties of Antrim, Armagh, Down, Fermanagh, Londonderry and Tyrone) should be prepaid at parcel post rates to Great Britain.

The contents of all parcels should be described as fully as possible on the customs declaration. Incomplete or incorrect entries may result in the confiscation of parcels in the countries of destination.

(30) **Suspension of Mail Services.**—Postmasters are reminded that all mail service to Germany (including Austria and Czechoslovakia) to Poland and to Danzig, has been suspended.

The direct parcel post service to Denmark, Brazil, Argentina, Norway, Egypt and Anglo-Egyptian Sudan, France and countries via France, and to Sweden and via Sweden to Norway, Denmark, Estonia and Finland, has also been suspended.

(31) **France—Import Retsrictions on Parcel Post.**—With reference to the announcement under the above heading which appeared in the November 1939 Supplement to the Postal Guide, the Department has now received advice that commercial parcels for France should not be refused because the sender cannot at the time of posting produce an authority for importation into France issued by the French Minister of Commerce. The responsibility for obtaining this authority rests with the addressees in France.

The previous notice should accordingly be amplified to read as follows:

"The French Postal Administration advises that, until further notice, the importation of all goods into France by parcel post is subject to prior authority from the Ministry of Commerce.

The only exception is in the case of parcels of a non-commercial character, addressed to private individuals, but batches of parcels may not be sent by the same post or to the same addressee.

The responsibility for obtaining, where necessary, an authority from the French Ministry of Commerce for importation into France rests with the addressees in France.

Whenever a parcel or batch of parcels for France is tendered and it would appear likely from the foregoing that the authority of the French Ministry of Commerce for importation into France would be necessary, the sender should be warned that the parcel or parcels will not be admitted into France unless the addressee has obtained such an authority. The parcel or parcels should, however, not be refused."

(32) **Parcel Post—Dutch Guiana.**—Postmasters are advised that the rates of postage on parcel post parcels for Dutch Guiana via New York have been revised and until further notice will be as follows:

VIA NEW YORK—

(50) Air Mail to be Distinctly Marked.—Reports reaching the Department indicate that air mail is allowed to go forward without distinctive AIR MAIL markings, thus increasing the possibility of it not being given air mail treatment.

"BY AIR MAIL (PAR AVION)" blue stickers are available for free distribution to users of the Air Mail Service for use on other than distinctive air mail envelopes and a supply should therefore be on hand at ALL Post Offices. These stickers should be handed out with the purchase of air mail stamps. There is no objection to these stickers being delivered in quantity to large users of the air mail service.

The public should be encouraged to use distinctive air mail envelopes, or failing this, to affix one of these stickers just above the address. If, however, the sender fails to observe this request it is the duty of the DESPATCHING Office to affix a blue sticker before the item is despatched, and postmasters will please renew instructions to their staff along these lines, reporting cases of failure on the part of other offices.

Rubber stamps reading AIR MAIL have been supplied to most Post Offices, a clear impression of which will be accepted where time does not permit of the affixing of the official blue sticker.
